BARGAINING HAS STARTED!

We have commenced bargaining with the City of Toronto on the main Collective Agreement and the Toronto Paramedic Appendix. We have exchanged proposals for both agreements.

Right now things are moving along. We have met with the employer several times and we have additional dates scheduled to meet with the City to work on both the main Collective Agreement and the Toronto Paramedic Appendix.

We will continue to work hard on your behalf to achieve fair deals.

SURVEYS

We would like to thank all of the members who filled out the bargaining survey. Your input is greatly appreciated and essential for our preparation for bargaining.

Having more information about our members' experiences in the workplace with the current language puts us in a better position to negotiate improvements to your Collective Agreement.

In Solidarity,

Your Bargaining Committee
